Why are these studies worth choosing?

Studying this specialization allows you to acquire knowledge, skills and qualifications in the field of international trade organization, in particular in the field of international financial and commercial transactions, their securing, financing and settlement with the use of modern forms of payment.

It also enables the acquisition of knowledge and skills in the field of currency risk management, the use of quotations and concluding transactions on international commodity and financial exchanges, the functioning of the international banking system and international financial institutions.

What can you do after graduation

Relations with international partners are nowadays an indispensable element of the activity of virtually every enterprise. The career prospects for graduates are extremely broad. Banks and financial institutions as well as enterprises and international corporations are just a few of the job opportunities that will open up for you after graduating from this specialization.

This program is for you if:

You have broad horizons and you like getting to know the culture of other countries

You are an open-minded person and establish relationships with people quickly

You think about an international career and unlimited development prospects

Study last 2 years (4 semesters), are worth 120 ECTS credits, end with a master's degree .

They end with a master's degree. The model of education is focused on major subjects in the field of finance and accounting and on specialty subjects.

FIXED TUITION - FLEXIBLE PAYMENTS

By choosing to study at UEHS, you can be sure that the tuition fee will not change throughout the duration of your studies. You can pay the tuition fee once for the entire year of study or spread over a semester payment. This allows you to decide how you want to plan your expenses.

REDUCE THE COST OF YOUR STUDIES

As part of the UEHS discount programme, you can take advantage of various reductions and promotions. They are usually applied in the first year of study. It means that your tuition fees will be reduced by the amount of the discounts granted. Candidates who register and pay their tuition fees within one month of registration will receive an English language course for free. The course covers 80 hours of English classes and 20 hours of classes of Polish culture.
